Küchen- und Haushaltstechnik

HOME, LIVING & LIFESTYLE
Summer/ Autumn 2023

Dear Limatec partner,

After we launched our first Limatec catalogue for our camping, caravan and boat sales market in May, we are very proud to be able to present you with the second Limatec catalogue with the themes kitchen, home & lifestyle today.

We have been on the market for 31 years. We have made a name for ourselves well beyond the borders of Europe with our versatile, space-saving and timeless mini kitchens. Our mini kitchens were and are sold all over the world, and not only the compactness, efficiency and the attractive pricing are valued, but also the high level of quality, ability to deliver and our above all, customer flexibility.

The global mini kitchen market is a very exciting niche market that has brought us together with unique companies, interesting people and challenging

projects. Our brand world has developed from this over the years. Since the company was founded in 1992, it has been our goal to offer our partners around the world added value, creative solutions for everything to do with the kitchen and to be a reliable partner for industry and trade. With over 200 well-known brands today, we seem to have more than succeeded in taking this step. Be it a loyalty program from banks, insurers or car manufacturers, a Christmas special for small and medium-sized companies or a GIVE AWAY offer for our active kitchen partners, Limatec always finds the right solution and works out tailor-made concepts and offers for its partners. Together with our brand partners, we try to create WIN TO WIN situations, network industry, projects and trade and open up new sales channels for many brands and give our customers access to brands that have not been their focus up to now.

We paid particular attention to functionality, but also to design and compactness. And of course the idea MADE in Germany or at least MADE in EUROPE is absolutely in focus for us, because it was and is important to us to

strengthen the domestic industry and thus convey our values to the outside world. The second Limatec catalogue brings together more than 70 brands from the areas of kitchen, household, garden, travel, leisure, sport and leisure and marks a successful continuation of a series of new catalogues, which you will find at Limatec AG this year. The big highlight will then be the INCENTIVE and bonus catalogue at the end of October. Again, you will find new and proven brand partners and suitable products. We especially want to recommend the ACOPINO brand to you. Limatec AG will take an important sales functions here and be proactive in building up the brand. A must for all coffee lovers!

Enjoy our second brand catalogue and contact us if you want to find out more about our new brands and the variety of their products.

Thank you very much for your attention and your loyalty.

Sincerely,

FRANK MAIER- CEO LIMATEC AG

No household or company can stay without a well-equipped kitchen. However, the spatial conditions do not always offer much space for a large or very wide kitchen unit. In contrast to a conventional fitted kitchen, a mini kitchen can be used to solve many space problems creatively and without sacrificing equipment or comfort.

Mini kitchen DESIGNLINE

Available widths 150 cm, 160 cm, 170 cm, 180 cm

Coffee enjoyment in all its facets has long been widespread with us, but making a good espresso with portafilter machines requires a certain amount of skill and experience. So no matter how you prefer to prepare your coffee, whether traditionally or with a one-touch function, you are guaranteed to find your new favorite coffee machine at Acopino.de.

Everyday life without a lightbulb or a washing machine: unimaginable. We're proud to have changed that. Because we don't believe that things have to stay the way they are. They should get better – “in form and function”, as Peter Behrens would say. The pioneer of industrial design used this principle to shape the AEG brand.

AEG
washing machine Eco
Mix Technology

Bowers & Wilkins

At Bowers & Wilkins, we do things differently. We believe that the perfect speaker should neither complement nor detract from the original music. Instead, it should reveal the "true sound" of the performance, faithful to the original in every nuance - exactly as the artist intended.

Bugatti was born back in 1923 Italy. A strong family heritage and a boundless vision have allowed Bugatti to grow and evolve over time, translating all of its creations into modern style statements with surprising shapes and finishes to transform. A process that reflects the historic craftsmanship of the country as well as a current ideal of togetherness and everyday experiences that are yet to be made.

Einhell. The battery competence - one battery for over 250 tools for workshop and garden Say goodbye to tangled cables! With the help of state-of-the-art technology and ambitious visions, we have succeeded in developing a battery system that allows you to enjoy wireless freedom in all situations. Whether it's tools or gardening equipment: thanks to the flexible exchange of battery packs and devices, it is possible to supply all members of the Power X-Change family with energy wirelessly using just one type of battery.

EINHELL
cordless drill driver
TC-CD 18/35 Li
(1x1,5 Ah)

Cordless drill with 35 Nm, speed 550 min⁻¹, torque levels 21+1, drill chuck 10 mm double sleeve, battery charging time 30 min
Manufacturer Art.No. 4513914
EAN 4006825633078
RRP € 99.00

EINHELL
cordless drill driver
TP-CD 18/80 Li BL-Solo

Cordless drill with 60 Nm, speed 1800 min⁻¹, torque levels 19+1, drill chuck 13 mm single sleeve, brushless motor
Manufacturer Art.No. 4513850
EAN 4006825611366
RRP € 119.00

EINHELL
Cordless impact drill
TP-CD 18 Li-i BL
(2x2,0Ah)

Cordless combi drill with 60 Nm, impact rate 28800 min⁻¹, torque levels 20+1+1, drill chuck 13 mm single sleeve, battery charging time 40 min
Manufacturer Art.No. 4513861
EAN 4006825614374
RRP € 249.00

EINHELL
Cordless rotary
hammer
HEROCCO 36/28

Cordless rotary hammer with 3.2 J impact strength, speed 1100 min⁻¹, number of impacts 5300 min⁻¹, torque 29 Nm, brushless motor
Manufacturer Art.No. 4513950
EAN 4006825645606
RRP € 329.00

EINHELL
Cordless mini circular
saw
TE-CS 18/89 Li - Solo

Cordless mini hand-held circular saw with a speed of 2500 min⁻¹, saw blade Ø 89 mm, cutting depth wood 28 mm, accessories vacuum cleaner adapter
Manufacturer Art.No. 4331100
EAN 4006825646184
RRP € 129.00

EINHELL
Machine set (tool)
TC-TK 18 Li Kit

Machine set with cordless drill and cordless angle grinder, including 2 batteries (1.5 Ah+3.0 Ah) and a quick charger.
Manufacturer Art.No. 4257238
EAN 4006825646504
RRP € 199.

Einhell

With the high-performance Power X-Change battery system from Einhell, you can enjoy wireless freedom anywhere. Be it in the workshop, garden, household or leisure time: over 250 devices are already part of the system.

EINHELL
cordless blower
TE-CB 18/180 Li-Solo

Cordless blower with 2 gears, 1 gear: speed 11500 min-1 / blow air flow 130 km/h, 2 gear: speed 15500 min-1 / blow air flow 180 km/h

Manufacturer Art.No. 3408001
EAN 4006825631746
RRP € 49.95

EINHELL
Cordless handheld
vacuum cleaner
TE-VC 18 Li-Solo

Cordless hand vacuum cleaner with a maximum suction power of 42 mbar, air volume 13.5L/s, container volume 0.54 L, including floor nozzle, crevice nozzle and upholstery nozzle

Manufacturer Art.No. 2347120
EAN 4006825612646
RRP € 49.95

EINHELL
Cordless wet and dry
vacuum cleaner
TE-VC 36/25 Li S-Solo

Cordless wet and dry vacuum cleaner with a maximum suction power of 150 mbar, container/volume stainless steel 25 L, incl. combination, crevice and upholstery nozzle

Manufacturer Art.No. 2347170
EAN 4006825656527
RRP € 169.00

EINHELL
Cordless Lawnmower
GE-CM 18/30 Li
(1x3,0Ah)

Cordless lawn mower with 30 cm cutting width, speed 3300 rpm, cutting height adjustment 3-way (30-70 mm), 25 L collection container, battery charging time 60 min..

Manufacturer Art.No. 3413155
EAN 4006825629163
RRP € 219.00

EINHELL
Cordless Lawnmower
RASARRO 36/42
(2x4.0Ah)

Cordless lawnmower with 42 cm cutting width, speed 3400 min-1, cutting height adjustment 6-fold (25-75 mm) collection container 50 L, battery charging time 75 min.

Manufacturer Art.No. 3413270
EAN 4006825651294
RRP € 469.00

There is a different story behind today's SIGG Bottle than most people assume: its predecessor is not the canteen from the 1920s, but the bed bottle, model 26.1661. It came onto the market as early as the 1960s. Its profile was later broadly adopted from the classic Traveler Bottle, which soon became widespread.

When the most creative minds from Smeg and Dolce & Gabbana come together, only something extraordinary can come about: design objects as thoroughly Italian as the homeland of the two style icons. Here, the unbridled creativity of haute couture and exquisite product design merge into absolutely unique home appliances, both elegant and enchanting. Each of them tells a very own story from Bella Italia.

General Terms and Conditions

1. Introduction

These General Terms and Conditions of Limatec AG (hereafter “Limatec”) apply to all present and future offers from Limatec and to contracts concluded with Limatec. Every natural and juridical person who maintains business relations with Limatec is identified as a customer.

2. Copyright notice

These General Terms and Conditions are protected by copyright. The exclusive right to use belongs to Limatec. Any reproduction, dissemination or other application is strictly prohibited and is permitted only with the explicit written approval of Limatec. Specifically, the use of these General Terms and Conditions in amended or unamended form for individual professional purposes is not permitted and will be prosecuted under civil law and pursued under criminal law. The same applies to any Limatec documentation, e.g. cost estimates or drawings. These shall also remain the copyrighted property of Limatec. They may not be made accessible to third parties. Such documents are to be returned to Limatec upon request. If the contract is not awarded, they are to be returned to Limatec immediately and without special request.

3. Scope

These General Terms and Conditions apply to all products, whether subject to a fee or free of charge, that Limatec supplies. Purchase and delivery shall occur only in accordance with Limatec’s General Terms and Conditions. Conflicting conditions or conditions of the customer that diverge from these General Terms and Conditions shall not be recognised unless Limatec has explicitly acknowledged their validity in writing. The respective current and binding version of the General Terms and Conditions is published on the internet at www.limatec-ag.ch. A hard copy can be ordered from Limatec.

4. Services provided by Limatec

Limatec shall provide its services professionally and painstakingly in accordance with these General Terms and Conditions, and with other contract clauses. Limatec shall aim to offer the best and most up-to-date products to its customers on a continuous basis.

5. Conclusion of contract

Any price list, brochure or other information from Limatec does not constitute an offer to conclude a contract; it is merely an invitation to the customer to make an offer / place an order (invitatio ad offerendum). A contract is concluded as soon as Limatec confirms acceptance of the customer's offer (order) by means of an order confirmation. The order confirmation is the sole authority for the content of the contract, particularly for the scope of service. Any amendment to the contract or any supplementary agreement requires written confirmation by Limatec. If however one of the aforementioned (resolutive) conditions occurs, the contract shall be immediately terminated without the involvement of the parties. Limatec shall immediately inform the customer of this. If the product has already been delivered, ownership shall automatically revert to Limatec and the customer shall be obliged to return the goods (against repayment of the price paid). If the product has not yet been delivered, the customer shall not be required to pay the purchase price or accept the product. The transfer of rights from this contract and the assignment of claims requires the agreement of the other contracting partner in order to be legally valid.

6. Product information

Limatec always makes every effort to inform and educate its customers as best as possible with regard to the products and services offered on its website. As Limatec does not produce any products itself and only sells original products by leading manufacturers, information about these products is obtained from the manufacturers and is compiled for customers in a transparent and customer-friendly manner. Any information on www.limatec-ag.ch is therefore to be understood without guarantee or liability and not as a warranty. In particular, no liability can be accepted for the accuracy, completeness or currency of the information. Limatec therefore reserves the right to deviate from its brochures, price lists and catalogues with regard to images, drawings and information related to dimensions, weight and performance insofar as these are not expressly

identified as binding and the deviations fall within standard tolerances. Products are always subject to deviations in stainless-steel structure and slight colour abnormalities.

7. Prices

All purchase prices are understood to be from the German warehouse and apply, unless otherwise stated, exclusive of value-added tax, advance recycling fees and copyright charges. Any delivery and shipping costs (without contracts and without setup) and costs for transport insurance are additional and are specially identified within the scope of the specific offer. Limatec may choose any dispatch route it wishes. Any additional charges that occur due to the customer's dispatch preference shall be borne by the customer. Any duty, freight and dispatch expenses that result from deliveries abroad shall be billed to the customer. The customer may charge against our account only with undisputed or legally validated counter-claims. Any right of retention on the part of the customer from previous or other business transactions as part of the business relationship is excluded.

8. Payment terms

Generally the customer is obliged to pay the amount in cash, by cash in advance or by cash on delivery. Limatec can deliver on account to public institutions and firms after a successful credit check by a Limatec-authorised credit institution and after the customer's entry in the commercial register has been checked. A credit limit and a payment term shall be established for the customer. Unless special arrangements are made net payment must be made within 10 days. Credit limits shall be continually reviewed and adjusted. If Limatec no longer believes the customer to be creditworthy, Limatec is entitled to cancel the order in whole or in part. Insofar as no other agreement are made, invoices are to be paid immediately without deduction. Any warranty retention is excluded. Payment shall be made free of charge and free from transaction fees to the Limatec bank account indicated on the invoice.

9. Late payment

In case of customer default or other contractual breach of duty, or if Limatec becomes aware of circumstances that diminish the creditworthiness of the customer, Limatec reserves the right to provide outstanding or future services only against payment in advance or cash on delivery. If the customer does not satisfy its payment obligations in whole or in part, any open amounts owed under any title shall be due and payable immediately, and any deliveries shall be suspended. Limatec reserves the right to withdraw from the contract. This contract dissolution shall come into effect automatically and without advance notice eight days after Limatec has unsuccessfully sent a request for payment with payment slip to the customer.

10. Delivery

Upon acceptance of the order and sending the appropriate order confirmation, Limatec shall be obliged to perform the service as fast as possible. The customer shall be contractually obligated to accept the service. In the event of non-delivery, the customer shall have the right to cancel four weeks after the agreed deadline at the earliest. In the event of a cancellation due to non-delivery, Limatec shall refund to the customer any amount that has been paid in advance. Any prospective delivery time can change without notice. Delivery times are intended only as a general basis and are not binding. In particular, the automatically generated order confirmation is not binding; it is merely intended to indicate to the customer that Limatec has received the order the customer has submitted. Any products that Limatec does not have in stock at its warehouse must first be ordered from the manufacturer or supplier. Any purchase contract is therefore subject to the (resolutive) condition of non-delivery and shall be terminated if the condition occurs, i.e. in the event that non-delivery is established. If a product is no longer produced or if it can no longer be delivered by Limatec's supplier, the contract between Limatec and the customer shall be automatically terminated. Receipt of the automatically generated order confirmation contains no promise that the product is actually available or can be delivered. It merely indicates to the customer that Limatec has received the order the customer has submitted, thus concluding a contract subject to the resolutive condition of non-delivery. Any product identified as being “in stock” at Limatec's warehouse is in principle available from Limatec's warehouse. Any purchase contract is therefore subject to the condition that the stock has not yet been exhausted and that no deficiencies are present. Any liability on the part of Limatec is excluded in such cases. Delivery deadlines begin only upon submission of all documents approvals, releases and any payment in advance to be made by the customer. A delivery deadline has been met if the goods are released for transport or the notification of readiness for dispatch has been completed and sent. In the event of any amendment requested by the customer the delivery deadlines shall be extended appropriately. Limatec is authorised to deliver or make partial deliveries at any time. Limatec may invoice partial deliveries immediately. If the dispatch of the goods takes place on call-off order, Limatec is entitled to store the goods at the expense and risk of the customer based on its own judgement and to charge the customer for these expenses once the time specified for the call-off order has elapsed.

If Limatec is not able to comply with the agreed delivery deadline for reasons it is unable to affect (breakdowns, strikes, lockouts, energy supply difficulties, delays in the supply of essential raw and basic materials, etc.), the customer shall be

informed immediately. Limatec shall be excluded from any liability in such cases. Limatec shall determine the transport company and shall be free from liability upon delivery of the goods to the transport company. In the event of a contract dissolution (cancellation), the depreciation of the product since the order and a reimbursement for expenses of 20% of the order or a minimum of CHF 60 may be billed to the customer. Limatec may also withdraw from (cancel) the contract if the customer does not collect the goods within two weeks. Notification of transport damage (visible and hidden) and incorrect deliveries are to be made within five working days of receipt of the shipment. In the event of damages, the forwarding agency for goods delivery must be informed immediately and an appropriate explanation of damage must be provided.

11. Retention of title

Products that are delivered to the customer shall remain the property of Limatec until the entire purchase price has been paid. The customer grants Limatec the right to enter a retention of title in the retention of title register. The customer shall insure any goods under retention of title against fire, water damage, burglary and theft at its own expense. Upon request from Limatec, the insurance policy is to be provided for inspection. The customer relinquishes any claims against the insurance company to Limatec in advance. In the event of any third-party access to retention of title the customer must inform Limatec immediately. The customer shall bear all expenses in connection with discharging the seizure and recovery of any goods delivered by Limatec.

12. Warranty

Limatec sells only original, factory-new products from leading manufacturers in name-brand quality. Since Limatec does not manufacture its products, it has no influence over the functioning of the product. Limatec therefore excludes any guarantee for its products unless it is the result of deliberate or gross negligence on the part of Limatec. However, Limatec shall issue its customers power of attorney to exercise their warranty rights against the manufacturers. In addition, Limatec shall provide its customers with the service of sending the customer's products to the manufacturers in the event that warranty rights are exercised against the manufacturers. This service will only be carried out at the domicile of Limatec unless otherwise agreed in writing. If Limatec is of the opinion that warranty on the part of the manufacturer is likely, Limatec may grant the customer pre-exchange of the product, i.e. Limatec consigns a similar product to the customer. This pre-exchange, which shall take place exclusively at the discretion of Limatec, shall take place on the condition (precedent) that the manufacturer actually assumes the warranty for the delivered product. The customer shall therefore attain ownership of the pre-exchanged product only at the moment of effective warranty on the part of the manufacturer. Limatec is authorised to enter a retention of title in the retention of title register. The customer must check the goods immediately after receipt of the delivery for completeness or any deficiencies and must notify Limatec with a written notice of defects within five working days of delivery. Completeness must always be checked in the presence of the forwarder / parcel deliverer and be noted with deviations in writing on the freight bill / delivery certificate. Any shortages identified later cannot be considered. If and insofar as a manufacturer, supplier or any other third party assumes warranty (e.g. by delivery of a warranty card) against the customer, Limatec's warranty shall in no way be extended even by way of its relationship to the customer.

13. Return of goods

Any returns shall be made at the expense and risk of the customer to the appropriate location designated for return by Limatec. The customer is responsible for professional and insured transport. The return must include a complete description of deficiency and a copy of the purchase invoice. Limatec may return at the sender's expense or decline acceptance of equipment that is sent for the fulfilment of the guarantee by the manufacturer, but does not fall under guarantee or was not purchased from Limatec. In the case of equipment that shows no evidence of defects or has defects that do not fall under the manufacturer's warranty, a flat-rate processing fee will be charged. If a product is returned to Limatec for repair the customer shall bear the entire responsibility for data backup before transferring it. Limatec cannot be held responsible for any loss of data. In the event of any obvious transport damage, Limatec shall accept the cost of return.

14. Exchange and return

The return of products is generally not possible. Returns are possible only as an exception and after agreement with Limatec. The maximum basis of price for all returns and exchanges shall always be the price that was effective on the day of the return or exchange. Any products that have been specially ordered for the customer and any auxiliary constructions or custom products cannot be cancelled once the order has been placed, i.e. they are entirely excluded from return or exchange.

15. Liability

Limatec undertakes to provide services to the customer in accordance with these General Terms and Conditions and the remaining contract provisions. Any claims for damages resulting from impossibility of performance, breach of contract, faults at conclusion of contract and unlawful acts, are excluded both against Limatec itself and against its subcontractors or

vicarious agents insofar as the damage was not the result of an intentional act or gross negligence. Liability for any indirect damage and consequential losses resulting from use, errors or loss of production is excluded.

16. Amendments to the General Terms and Conditions

Limatec reserves the right to amend the General Terms and Conditions at any time. Amendments to the General Terms and Conditions will be announced by informing the customer of the effective date in a timely manner via email. Limatec cannot be prosecuted for insufficient notification or non-receipt of the email with regard to amendment of the General Terms and Conditions. Any purchase order that took place at a time before the amended Terms and Conditions came into force and became binding via an order confirmation by Limatec shall be subject to the previous General Terms and Conditions even after introduction of the amended General Terms and Conditions.

17. Place of jurisdiction and applicable law

The place of jurisdiction for any dispute with Limatec - subject to any divergent place of jurisdiction specified by Swiss federal law - shall be Limatec's place of business (currently Romanshorn, Thurgau, Switzerland). Limatec may also choose to sue the customer at the customer's place of business. The contract is subject to Swiss law (to the exclusion of UN Convention on Contracts for the International Sales of Goods (CISG)). The place of performance for any claim arising from contracts concluded with Limatec is the place of business of Limatec AG. If any provision of this agreement is found to be invalid in whole or in part, the validity of the remaining provisions shall remain unaffected. Any ineffective provision shall be replaced by a regulation that closest reflects the content of the intended regulation.

18. Place of performance, transfer of risk and place of supplementary performance

The place of performance for any claim arising from contracts concluded with Limatec is Limatec's place of business. The risk of accidental loss and accidental deterioration of any goods sold is transferred with the goods to the customer itself or to any person authorised to receive the goods. In the case of a sale by delivery to a place other than the place of performance this risk is transferred as soon as the goods are delivered to a suitable transport person. In view of the risk of loss, it is equal to the transfer, if the customer is in default of acceptance. Insofar as the customer has any claim to supplementary performance against Limatec, Limatec shall be free to choose the place of supplementary performance from between its place of business or its German warehouse.

19. Final provisions

If any provision of this agreement is found to be invalid in whole or in part, the validity of the remaining provisions shall remain unaffected. Any ineffective provision shall be replaced by a regulation that closest reflects the content of the intended regulation.
