## Steam-wash function

- Experiments have shown that 99.99% mites can be killed when the water temperature is 58° C or above with min. 20 minutes washing time.
- Prior to the last washing program “Spin”, a small amount of water is heated to 80° C to generate steams. The blue indicator light will be on for 3 minutes while bacteria and mites deep in the fiber will be killed to safeguard the health of your family.

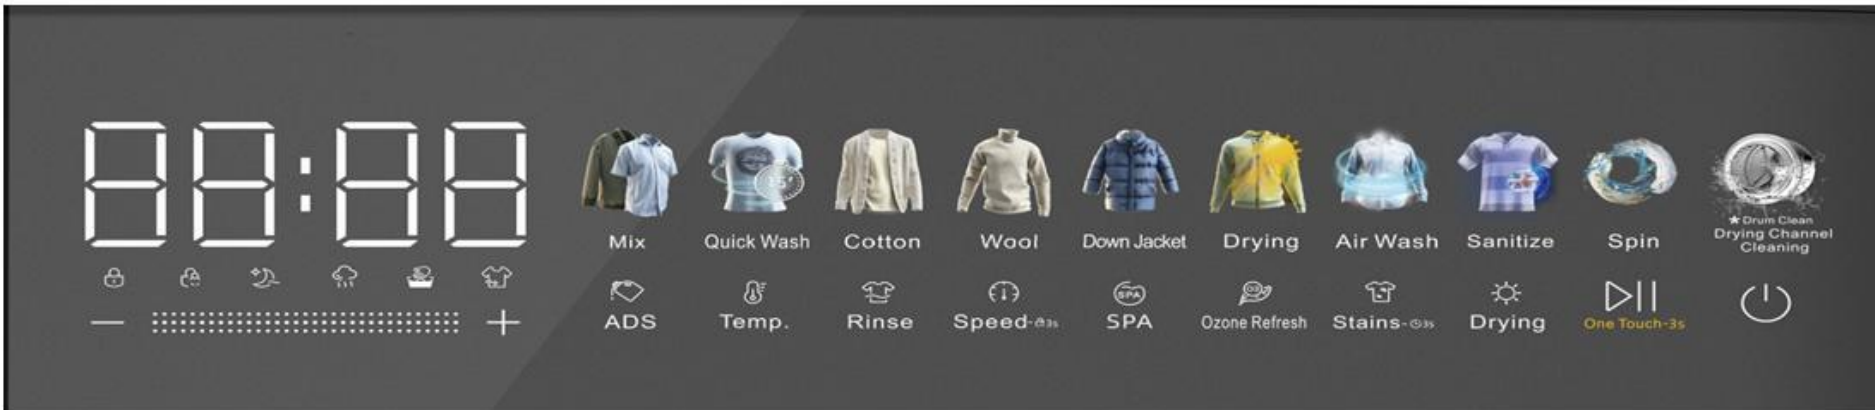

## One-touch function

- Press and hold the “One Touch” button for 3 sec. to enable this function, without pressing the “Power” button. Then the system will automatically detect the water level and clothing capacity, set the wash, rinse, and spin times, etc. to achieve the optimum washing effect and save water.
